

Visual Inspectors for Pressure Equipment

AVH Engineering Inc. is looking for experienced, certified, and competent pressure equipment inspectors to work on remote industrial sites in Western Canada for seasonal Turnarounds in 2025 and potentially 2026. The work is typically in oil and gas facilities in Saskatchewan, Northern Alberta, and British Columbia. Projects may extend from March through June and August through October time frames, with exact dates and times for the services to be determined by end-users. Hourly rates for services would range between \$45 and \$55 depending on experience. Applicants must, at minimum:

- Have 10 years' experience in pressure equipment Quality Control (QC) and/or inspection
- Provide references as proof of competency

Applicants must, at minimum, have the following certifications:

- API 510
- API 570
- Welding inspection certifications such as SAIW, SAQCC, CSWIP or similar
- Previous Risk-Based Inspection (RBI) experience and/or certification such as API 580 or an engineering or technical degree
- NDT certification or experience in RT, MT/PT, UT, and/or engineering/technical degree

Qualified applicants may send their résumé to: info@avheng.com.
